

We are pleased to have reopened our play park but we need you to follow this guidance to make it as safe as possible for everyone.

If you feel unwell or are experiencing Coronavirus symptoms, please do not use the play park. If you cough or sneeze, catch it in a tissue and dispose of the tissue in the litter bin or preferably at home.

If the play park is busy, please wait or come back later.

We advise that there should be no more than **8** children using the equipment. All children should be accompanied by an adult.

If there is a queue, then please limit your use of the play park to 20 minutes

Please maintain a safe distance between yourself and others.

Guidance is given on the larger pieces of equipment to show the maximum number of users to ensure adequate distancing.

Sanitise your hands before, during and after using the play park, especially after touching play equipment and the access gate.

Try not to touch your face.

You should wash your hands thoroughly when you get home.

No food or drink should be consumed in the play park.

Please use the bin provided or take your litter home.

Our equipment is checked regularly for damage and wear and tear, but play equipment and benches are not cleaned, sanitised or disinfected.

Scientific advice suggests that the Covid-19 virus can survive for up to several days on some hard surfaces. The risks are reduced when outdoors, where surfaces may be subject to UV light and/or rain. Whilst all possible practical measures have been put in place users of the facilities do so at their own risk.
