Dear Resident,

## Register your interest to join the Riding Mill Community Fibre Project.

Funding is available to the community of Riding Mill to improve the broadband quality throughout the area. The funding is provided by the Department for Digital, Culture, Media & Sport (DCMS) who have dedicated funding for rural communities to improve their connectivity and is being led by registered suppliers, FACTCO.

FACTCO will use this funding to design, build, install, maintain and supply Ultrafast Full-Fibre Broadband to the community of Riding Mill for both residential and business. A Community Fibre Project can only work if we get the community to express their interest in the network install.

Working together with Northumberland County Council and Cllr Anne Dale with support from you, the community we can deliver a network that benefits everyone - providing a connection that will last far into the future. This will enable families to enjoy reliable connectivity that can be used throughout the home on multiple devices and support businesses to diversify and provide online services and flexible working opportunities.

Register your interest today by visiting [factco.co.uk/ridingmill/](http://factco.co.uk/ridingmill/) and complete the form provided. Alternatively, you can call the FACTCO team on 0333 305 7560 or email your Community Fibre Lead, Ian Finlay via [ian@factco.co.uk](mailto:ian@factco.co.uk).

We will be holding a drop in event at the Millennium Hall, Church Lane, Riding Mill between 2pm - 4.00pm on Monday 20th. We would love for you to join us to find out more about the project and have a free cup of tea or coffee and maybe a biscuit or two!

per month

**300 Mbps**  
upload & download

**£44.99**  
per month

**1000 Mbps**  
upload & download

## Benefits of Ultrafast Home Broadband

- As well as using a computer or laptop, people are now connecting to the internet through smartphones, tablets, games consoles, TVs and an entire range of smart home appliances. Ultrafast broadband will support multiple devices connected to the internet at the same time with no impact to speed.
- Increase the value of your home – as the internet plays such an integral role in our lives buyers are becoming increasingly reluctant to invest in a property with inadequate broadband speeds.
- Quicker and more reliable internet connection makes it easier to stream films and music and join all those Zoom meetings.

If you run a business from home, you can claim a business voucher for your property. As well as limited companies, business vouchers cover partnerships and sole traders. This could include dog walkers, mobile hairdressers, painter and decorators. The business doesn't have to be a full-time occupation and you could also be eligible if your property is a holiday cottage.

## Benefits of Ultrafast Business Broadband

- Support the ability to trade online,
- Download and upload files much more quickly,
- Utilise cloud data storage to hold data safely and securely,
- Offer employees remote and flexible working practises.

Best wishes,  
The Team @ FACTCO
